

## **Certified Governance, Risk Management and Compliance Specialist (CGRCS)**

The Certified Governance, Risk Management, and Compliance Specialist™ (CGRCS) is a world-class certification that demonstrates the attainment of a defined level of technical knowledge and experience in governance, risk management and compliance, professional practice, and ethical behaviour. It forms the basis of the assessment that applicants must pass to gain the Certified Governance, Risk Management and Compliance Specialist recognition and inclusion in the Register of the Global Academy of Finance and Management® (GAFM) Certified / Chartered Professional. Individuals with several years of practicing enterprise risk management and compliance are encouraged to acquire this certification.

Capitalize on the rising demand for Governance, Risk and Compliance (GRC) expertise by earning the CGRCS certification. The CGRCS is a proven way to demonstrate your knowledge and skills to integrate governance, performance management, risk management and regulatory compliance within your organization.

CGRCS specialists utilize frameworks to integrate security and privacy within organizational objectives, better enabling stakeholders to make informed decisions regarding data security, compliance, supply chain risk management and more.

This specialization prepares delegates for the Governance, Risk and Compliance challenges that businesses face. Business must meet the challenges of emerging markets, a world connected by social media, and rapid technological advancements, hand in hand with huge challenges relating to environment and poverty. Therefore, we incorporate also the role of ethics and corporate responsibility in a connected world as well as the role of business in addressing Compliance and Risk such environmental issues.

CGRCS Participants will get a grasp of all widely accepted GRC frameworks and how they may be used to generate greater levels of corporate performance and enhance short, medium, and long-term business sustainability. Governance, Risk Management, and Compliance (GRC) are three major pillars that assist ensure a business consistently accomplishes its goals, manages uncertainty, and behaves with integrity. The certification validates and demonstrates the individual's understanding of IT systems and enterprise governance.
